Subject: RE: example ANMP feedback

Hi Alyssa,

I reviewed the comments you sent for the ANMP example. I believe we have addressed all of those comments in the revised ANMP Template that we had sent previously (with the exception of the list of required records which I'm working on and which will be included in the revised permit). Please take another look at the ANMP Template (attached for your reference) with the example ANMP and your comments in mind and let us know if you still feel we are missing any of the required elements.

Thanks again for taking the time to review and look forward to your feedback!

-Sara

Hello Sara and Jackie,

Thanks for sending a sample ANMP to Christy. We were able to take a look at it and found it very helpful.

There are a few federal requirements for NMPs that appeared to be missing in the example you sent. We've reflected these on the right hand side of the attached table. We talked about some of these already at our in person meeting and believe we've already come to an agreement on most of them.

We had discussed the possibility of an in person meeting later this month – please let me know if there are some good days and times that work on your end. We can also discuss any comments or questions you have on the attached document then.

Thanks and have a great long weekend.

Alyssa
